

# George Jinhong Wu

**Date of Birth:**August 2006

**Location:** Guangzhou, China

**Email:** [mankindgeorge07@gmail.com](mailto:mankindgeorge07@gmail.com)

**Hometown:**Jieyang, Guangdong

## Education

## Sep 2024 – Present

**GDUFE**

## B.S. in Data Science & Big Data Technology

**Relevant Coursework:** Data Structures & Algorithms, Database Systems, Operating Systems, Applied Regression Analysis, Data Governance, Unstructured Data Mining, Algorithm Analysis & Design, Optimization Methods, Data Collection

## Project Experience

**Jul – Sep 2025**

## Luofu Mountain Ecological Product Value Research

### Team Member

### Provincial-level "Thousands of Villages" Program

- **(S→T)** Tasked with collecting primary data on ecological product value conversion pathways in rural China; responsible for interview coordination and survey execution
- **(A)** Designed structured interview guides and conducted 5 on-site interviews with government officials and enterprise representatives; distributed and collected 100+ valid survey responses
- **(R)** Analyzed survey data using Python (Pandas) and Excel, producing statistical summaries and visualizations that identified key value conversion trends; project won First Prize for Outstanding Research Report

**Oct 2024 – Sep 2025**

## Digital Talent Supply-Demand Mismatch Research

## Data Analyst

University-level Double-Hundred Project

- **(S→T)** Assigned to analyze digital talent supply-demand imbalances; responsible for literature review and quantitative data analysis
- **(A)** Conducted cross-dimensional comparative analysis using Excel PivotTables; performed questionnaire data compilation, cleaning, and coding to ensure data integrity
- **(R)** Synthesized findings into actionable research conclusions; project completed with "Good" evaluation at the university level

## Jun 2026 – Present

## Full-Stack Blog Platform

## Independent Developer

- Developed a full-stack blog system using Nuxt3 (SSR) + NestJS + Prisma + PostgreSQL with JWT authentication; deployed via Docker with GitHub Actions CI/CD for automated release workflows

**Sep 2024 – Jun 2025**

## Youth Volunteer Association

## Member

- **(S→T)** Required to organize and execute multiple volunteer events across diverse community settings within one academic year
- **(A)** Planned and coordinated 10+ events including elderly care visits, primary school tutoring, and campus sustainability initiatives; managed volunteer assignments and on-site operations
- **(R)** Achieved high volunteer participation rates and received positive feedback from all partner organizations

## Honors & Awards

National Second Prize, China Education Robot Competition  
Third Prize, Pazhou Algorithm Competition  
Third Prize, "Qinhu Cup" Digital Human Innovation  
Competition; Third Prize, Robot Competition

Outstanding Individual, "Thousands of Villages" Program  
Excellence Award, GDUE AI Capability Competition

## Skills

**Languages:** CET-4 (College English Test Band 4); proficient in reading English technical documentation

**Data Analysis:** Python, R, Excel, MATLAB, SPSS

**Data Engineering:** Data collection, survey design, data cleaning & governance, unstructured data mining

**Programming:** C, Python; database fundamentals
